

THE WAY I FEEL

The way I feel, is so special to me
If you look close, I know you can see
For me to say, I love you each day
Is easy for me because I do it anyway
You know this is true, and so do I
Because my love is strong and I don't even try

The way I feel only I can show
I hope you believe what I already know
Look deep into my eyes as only you can
So I can hold you in my arms and show you I'm a man
Show you I'm a man like never before
Because each day I see you I always want more

The way I feel I'll tell you again
I'll do as you ask and start as a friend
Yet soon December third will come for us
On that day there will be a fuss
That is the day that you will be mine
And all that I ask is that it is the right time

The way I feel will never decrease
I'll hold you forever and never cease
The moments we share only we can do
Holding you in my arms forever loving you
So don't ever let go because if you do
I will know I have lost someone special that's you
